Component for Use In Mattresses Certified for Flammability- Component

Model Descriptions: The product covered by this Procedure is a para-aramid stitching thread designated "Flame Out STW", and intended for use only in complete mattresses (PHIX2) where the acceptability of the combination is determined by Underwriters Laboratories Inc.

Have been investigated by Underwriters Laboratories Inc.® in accordance

with the Standard(s) indicated on this Certificate.

Standard(s) for Safety: Mattress Standard, 16CFR1633, "Standard for Flammability (Open Flame) of

Mattress Sets."

Additional Information: See UL On-line Certification Directory at www.ul.com for additional information.

Only those products bearing the UL Recognized Component Marks for the U.S. and Canada should be considered as being covered by UL's Recognition and Follow-Up Service and meeting the appropriate U.S. and Canadian requirements.

The UL Recognized Component Mark for the U.S. generally consists of the manufacturer's identification and catalog number, model number or other product designation as specified under "Marking" for the particular Recognition as published in the appropriate UL Directory. As a supplementary means of identifying products that have been produced under UL's Component Recognition Program, UL's Recognized Component Mark: A, may be used in conjunction with the required Recognized Marks. The Recognized Component Mark is required when specified in the UL Directory preceding the recognitions or under "Markings" for the individual recognitions. The UL Recognized Component Mark for Canada consists of the UL Recognized Mark for Canada: A and the manufacturer's identification and catalog number, model number or other product designation as specified under "Marking" for the particular Recognition as published in the appropriate UL Directory.

Look for the UL Recognized Component Mark on the product
