METROFLOCK®

100 % polyamid

Stay true to your line.

19 new wonderful colors

Overlock threads have to work hard – three times over. They have to stitch, neaten the seam and cut off any excess fabric in one fell swoop, all the while maintaining a consistently high standard: professional needlewomen are only satisfied when they have a nice, clean edge to their work.

Given these demands it is no wonder that Overlock machines have their own favourites: Mettler Overlock threads. They prove their strength when three, four or five threads are used. With three different Mettler Overlock threads you will always find the one you need.

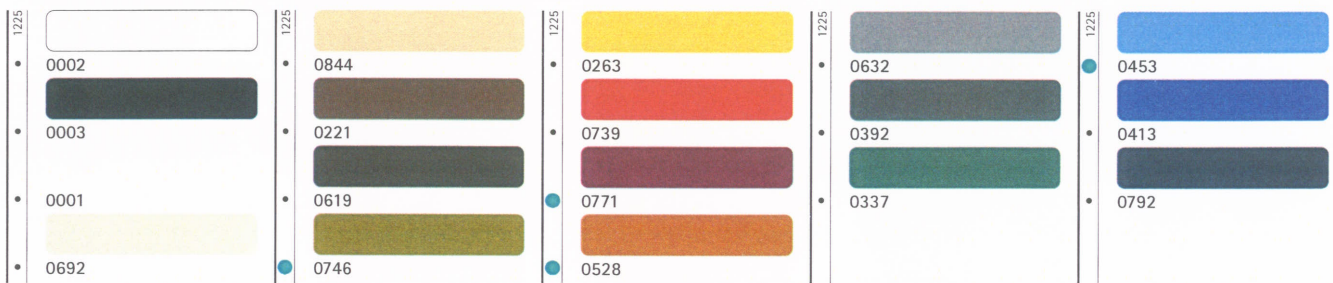

Mettler®

the premium quality sewing thread

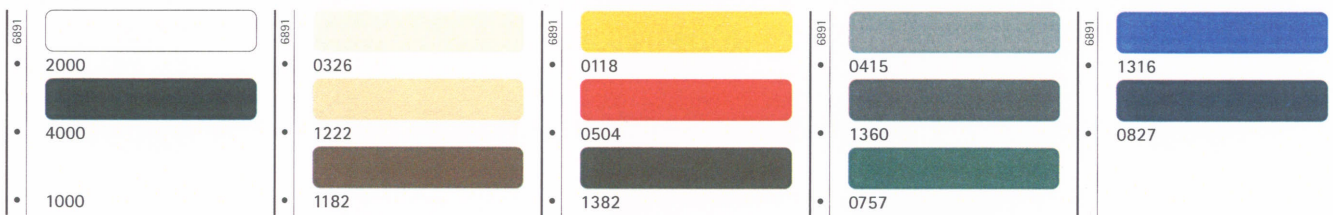

Mettler Metrocor® 100 % polyester

Mettler Metrolene® 100 % polyester

Serafil 100 % polyester

Mettler Metroflock® 100 % polyamid

Due to the printing process colors may vary from the original card.

Overlock at a glance.

Mettler Metrocor®

The all-rounder of the Mettler Overlock threads carries out all classic needleworking tasks with ease. Mettler Metrocor® has a strong core, around which the pliant outer fibres are spun to give the thread its matt finish. Mettler Metrocor® is also perfectly suited for quilting and patchwork.

Ideal for borders and all classic Overlock tasks.

Mettler Metrolene® Serafil

The Overlock thread for fine fabric is guaranteed to produce strong yet virtually invisible seams. Its fine quality means that Mettler Metrolene® and Serafil can also be used as a bobbin thread in all its many colors.

Ideal for working with fine fabrics.

Mettler Metroflock®

This soft and wooly Overlock thread for particularly elastic applications delivers strong results on any material. Designed for both cover seams and decorative stitching, the soft lushness of Mettler Metroflock® keeps everything in good shape.

Ideal for lingerie, swimwear and sportswear.

The new practical snap spool for article 1225, 1227, 2237 has the following advantages:

The thread slips into the groove for neat storage

No annoying tangles

Simple to use
