

Wildcat Plus®

TEXTURED
POLYESTER

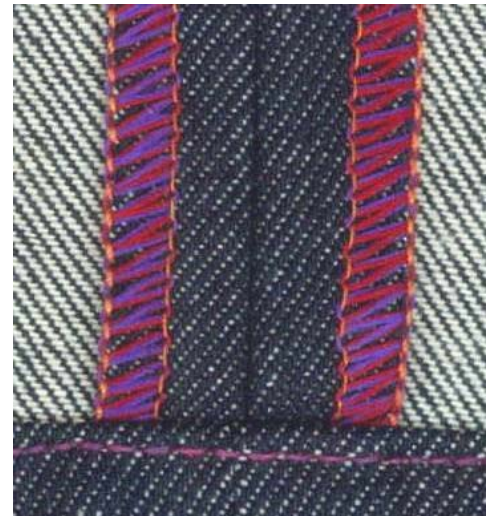

Wildcat Plus®

For SOFT Inside Seams on Denim!

Compact Serging @ 16 spi

Regular Serging @ 8 spi But with
2 ends in the Upper Loooper

Features & Benefits:

- Made with first quality continuous filament polyester yarns
 - Superior color fastness and chemical resistance
 - Less variation and more consistency in physical characteristics
- High bulk twisted Textured thread construction
 - No yarn imperfections that can lead to sewing interruptions
 - Superior seam coverage on overedge and coverstitch seaming applications
 - Superior seam elasticity on stretch denim garments
 - Softer “hand” contributing to more comfortable garments
- Less expensive thread construction

*Not recommended for lockstitch needle positions.

Other *Innovative Serging* Brands:

Super Brite Polyester® = twisted multi-filament tri-lobal polyester thread with higher sheen

Design-A-Core® = Cotton-wrapped poly core that gives a matte – two tone stitch appearance

D-Core® *Indigo* = Cotton wrapped poly core that will “wash-down” similar to the denim fabric.

Signature Plus® = BOLD & SHINY look ... made from air-entangled tri-lobal polyester.
