A-A-52095B

A&E's Textured Polyester threads that meet US Government A-A-52095B specifications and are Berry Amendment Compliant

Common Applications

- Knitwear
- Casualwear
- Fleece
- Stretch Knits
- Swimwear
- Underwear

Features & Benefits:

- Made with first quality continuous filament polyester yarns
 - Allows the use of smaller thread sizes to minimize needle cutting
 - Superior color fastness and chemical resistance
 - Less variation and more consistency in physical characteristics
- High bulk twisted Textured thread construction
 - Superior ply security
 - No yarn imperfections that can lead to sewing interruptions
 - Superior seam coverage on overedge and coverstitch seaming applications
 - Superior seam elasticity on stretch garments
 - Softer "hand" contributing to more comfortable garments

A-A-52095B Physical Requirement Characteristics

Tex Size	Strength Lbs. (Min.)	Elongation % (Max)
18	1.4	35
24	1.9	35
35	2.5	35
50	3.9	35
70	5.8	35
105	6.9	35

Textured Threads are made from continuous filaments of polyester which have been stretched, textured and then heat set to insure proper bulk retention. Textured threads are ideal for overedge, chainstitch, and coverstitch operations on knits and wovens.

Textured threads are NOT recommended for lockstitch needle positions.
