Clearlon®

Monofilament, Nylon Sewing Thread

A&E's **Clearlon®** is a monofilament nylon sewing thread often sewn in blindstitch operations and quilting on soft home products. **Clearlon®** is also used for specialty industrial application where thread stiffness and stitch removal are required.

Clearlon® available in a clear, translucent color, blending with many colors. This specialized nylon thread sews well on blindstitch sewing machines, minimizing thread changes and machine adjustments to provide an efficient sewing process.

Clearlon® is regularly used in the sewing of soft home products, mattress and bedding, automotive, collars and cuffs in dress shirts, quilting operations, and specialty industrial applications.

Available in a variety of sizes
with or without a dome

FEATURES

- **Translucent in Color**

Clearlon® is provided in a clear, translucent color enabling it to blend with almost any color, providing for maximum color versatility in products that require this unique feature.

- **Unique Sewing Capability**

Clearlon® has been engineered to provide good overall sewability for blindstitch sewing machines, allowing for efficiency in specialized operations. This unique nylon monofilament sewing thread has a consistent diameter for additional sewing performance, minimizing thread changes and machine adjustments.

Applications include:

Attaching Appliques and Patches

Dress Shirts / Fine Tailoring

Blindstitch Operations
