Anecord Poly®

Bonded Monocord, Polyester Sewing Thread

A&E's **Anecord Poly®** is a bonded monocord polyester sewing thread ideal for sewing a wide range of products.

Anecord Poly® features a monocord construction, displaying a flat, ribbon-like cross section for low-profile stitches. This thread construction allows for excellent seam strength and good overall sewing performance.

Anecord Poly® is regularly used in industrial filtration products, geotextiles, outdoor products and specialty industrial among others.

FEATURES

- **UV Resistance**
Anecord Poly® delivers better resistance to UV exposure than nylon or polyamide sewing threads.
- **Superior Sewability**
Anecord Poly® has been engineered to provide good overall seam strength and superior sewability. This thread boasts excellent ply security and has a consistent diameter with low moisture regain.
- **Very Good Colorfastness**
This durable thread provides very good colorfastness with good chemical resistance.
Anecord Poly® is available in a wide range of color.

Applications include:

Industrial Filtration

Geotextiles

Outdoor Products
