

HIGH PERFORMANCE BOBBINS

HIGH YIELD, PRECISION, PRE-WOUND, PERFORMANCE BOBBINS

A&E produces High Performance Bobbins in a wide array of filament and staple spun fibers and constructions. Representing the perfect combination of quality and time-saving convenience, these bobbins greatly reduce sewing interruptions, while providing consistent stitch formation and dependable performance.

Package designed to speed your productions, A&E's High Performance Bobbins are precision wound allowing for an increased yield over machine-wound bobbins. This allows for fewer bobbin changes, improved tension control, and predictable run times. These quality bobbins are strictly-controlled for uniformity, tack, and yardage.

Available in a variety of sizes and colors, A&E's High Performance Bobbins are offered in common bobbin sizes from A-Z, available in either side-less or sided styles and sold by the gross (144 units). Metal detectable bobbins are also available in select sizes.

Ask your sales representative on the availability of A&E Cocoon Bobbins.

BENEFITS

PRECISION PRE-WOUND — Assists in providing consistent stitch formation for a superior, dependable sewing performance.

SUPERIOR SEWABILITY — Designed with yardage control in mind, these performance bobbins are precision wound to the correct number of yards per bobbin, allowing for maximum efficiency with predictable run times, and dependable performance.

WIDE VARIETY — Offered in styles A through Z, A&E's High Performance Bobbins are available in nylon, polyester, spun poly, cotton, cotton poly blend, meta-aramid, and para-aramid fiber types.
