

ANEFIL POLY®

TWISTED MULTIFILAMENT, POLYESTER SEWING THREAD

Providing good overall seam strength and a better resistance to UV exposure than traditional nylon sewing threads, A&E's Anefil Poly® is available in soft or a bonded finish. This thread delivers excellent seam strength with fewer sewing interruptions due in part to its twisted multifilament, continuous polyester construction.

Anefil Poly® is available in Bonded, SST (Stretched), STX (Non-Stretched), and SBT (Highly-Stretched).

Ask Your A&E Sales Representative on Available Product with this Certification.

BENEFITS

UV RESISTANCE — Delivers a better resistance to ultraviolet light exposure over traditional nylon and polyamide sewing threads.

SUPERIOR SEWABILITY — Engineered to provide good overall seam strength, good abrasion resistance, and a superior sewing performance. When bonded, Anefil Poly® boasts excellent ply security with a consistent diameter and low moisture regain.

VERY GOOD COLORFASTNESS — Displaying good colorfastness with good color resistance, Anefil Poly® is available in a range of popular colors.

HIGHLIGHTED USES

- Automotive
- Footwear
- Luggage
- Handbags
- Outdoor Products
- Filtration
- Specialty Industrial
- Geotextiles
- Covers
- Web Slings
- Tie Downs
