

ANESTRONG™ ECO100

100% RECYCLED, HIGH TENACITY, FINE DENIER, POLYESTER SEWING THREAD

Ethically-manufactured, Anestrong™ ECO100 is a 100% recycled polyester variant of the traditional, high tenacity sewing thread. Recommended for use in transparent blindstitching, basting, and felling apparel applications, Anestrong™ ECO100 delivers a soft, smooth thread with exceptional strength versus other sewing threads of a similar size, due to its twisted multifilament, polyester construction.

BENEFITS

100% RECYCLED POLYESTER — Anestrong™ ECO100 is constructed using 100% recycled polyester produced in GRS SCOPE CERTIFIED facilities.

HIGH TENACITY / SMALL SIZE — Delivers outstanding strength versus other sewing threads of the same tex size. Anestrong™ ECO100 is an eco-friendly choice for seaming, button sewing, and in edge stitching of lapels.

MAXIMUM SEWING EFFICIENCY — Maximizes sewing performance when running at elevated speeds, reducing machine downtime, and improving productivity.

HIGHLIGHTED USES

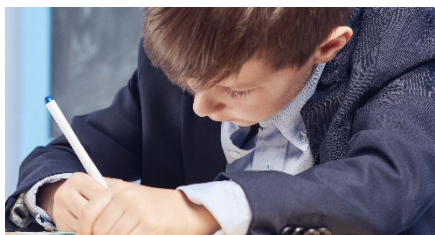

- School Uniforms
- Children's Wear
- Fine Tailoring
- Blazers / Sport Coats
- Menswear
- Ladieswear

ANESTRONG™ ECO100
