CHROMA™ SPC

SPECIALY-PROCESSED, HIGH TENACITY, LONG STAPLE, SPUN COTTON SEWING THREAD

Ask your A&E sales representative about available product with this certification.

Specially-treated under tension to provide excellent luster and increased strength, A&E's Chroma™ SPC is engineered for higher tenacity and increased abrasion resistance versus traditional long staple cotton thread and is manufactured with Cradle to Cradle Certified™ compliant dyes and chemicals. Chroma™ SPC provides trouble free sewing due to its natural fiber, high tenacity, and excellent lubrication qualities.

A&E has earned a Gold level C2C Certified Material Health Certificate™ for Chroma™ SPC. A C2C Certified Material Health Certificate™ is awarded to products that meet the material health requirements of the multi-attribute Cradle to Cradle Certified™ Product Standard.

C2C CERTIFIED™ DYES AND CHEMICALS COMPLIANCE

This thread product is manufactured with C2C Certified™ compliant dyes and chemicals and has earned a Gold level Material Health Certificate.

INCREASED TENSILE STRENGTH

This thread utilizes specially-processed cotton to provide a higher strength to fineness ratio than traditional, long staple cotton thread products.

EXCELLENT SEWING PERFORMANCE

Twisted and finished, this thread delivers optimum efficiency when sewing on manual and automatic multi-directional sewing machines.
