about available
product with this
certification.

A&E's D-Core® RFD is engineered for its thread color to fade down with the garment after finishing. Featuring an enhanced cotton wrap and continuous filament polyester core for added strength, this ready-for-dye variant of A&E's D-Core® maintains integrity during enzyme washing and other finishing processes after garment dyeing. D-Core® RFD is available in light, dark, and very dark for additional versatility.

COLOR WASHES WITH GARMENT

Enhanced for garment overdye, this thread product is designed to wash down with the garment during laundering, for a worn appearance over time.

GOOD PLY SECURITY

This product delivers greater seam integrity with good seam strength and abrasion resistance, while providing a higher resistance to stretching under normal sewing tensions.

EXCELLENT SEWING PERFORMANCE

Allowing for the use of smaller thread sizes when sewing, this thread minimizes puckering and needle cutting, aiding in overall production efficiency.

**GARMENT OVERDYE • DENIM • CASUAL WEAR • UNIFORMS • SHIRTS
OUTERWEAR • COATS AND JACKETS • PANTS AND TROUSERS**
