ANECOT® ORGANIC

ORGANIC, LONG STAPLE, SPUN COTTON SEWING THREAD

Ask your A&E sales representative about available products with these certifications.

Ask your A&E sales representative about available product with this certification.

Ideal for applications where a high strength, organic, natural fiber is required, A&E's Anecot® Organic is an excellent choice for garment overdyeing. Twisted and finished for optimum sewing performance, this long staple, ring spun cotton sewing thread is a great choice for garments with an added sustainable touch and is stronger than short staple cotton thread products, size for size. Ask your A&E representative about available GOTS and OCS certifications. Anecot® Organic is available in soft, gassed, and mercerized and gassed thread variants.

100% ORGANIC COTTON

This thread product is made with organic cotton. Organic cotton is grown without pesticides and other chemicals and uses less water to grow versus conventionally grown cotton.

EXCELLENT SEWING PERFORMANCE

This thread is twisted, finished, and engineered to deliver optimum efficiency when sewing on manual and automatic multi-directional sewing machines.

EXCELLENT FOR GARMENT OVERDYE

Displaying very good colorfastness, this thread is an ideal choice for garment overdy processes when a natural, organic product is preferred.
