ECO100
100% RECYCLED THREAD

Ask your A&E sales representative about available product produced in GRS SCOPE CERTIFIED facilities.

Ask your A&E sales representative about available product with this certification.

Ethically-manufactured, Anestrong™ ECO100 is a 100% recycled polyester variant of the traditional, high tenacity sewing thread, Anestrong™. Recommended for use in transparent blindstitching, basting, and felling apparel applications, Anestrong™ ECO100 delivers a soft, smooth thread with exceptional strength versus other sewing threads of a similar size, due to its twisted multifilament, polyester construction. Anestrong™ ECO100 is produced in GRS SCOPE CERTIFIED facilities.

100% RECYCLED POLYESTER

Engineered with a twisted multifilament construction, this sustainable sewing thread is made with 100% recycled polyester.

HIGH TENACITY / SMALL SIZE

Delivering outstanding strength versus other sewing threads of the same Tex size, making this thread an ideal choice for seaming, button sewing, and the edge stitching of lapels.

MAXIMUM SEWING EFFICIENCY

This thread product maximizes sewing performance when running at elevated speeds, reducing machine downtime, and improving overall productivity.
