ENDURANCE®

READY-FOR-DYE, SPUN LYOCELL SEWING THREAD

Produced using man-made cellulosic fiber, Endurance® is a biodegradable, lyocell sewing thread that notes improved strength over traditional cotton sewing threads. Developed for specialized garment overdyed applications, this sewing thread is twisted and finished with high performance lubricants, minimizing seam failures and maximizing sewing efficiency on manual and automatic machines.

TENSILE STRENGTH OVER COTTON

This thread delivers improved tensile properties over cotton. Strength for size, Lyocell is the only manmade fiber stronger than non-mercerized cotton, wet or dry. When wet, lyocell retains 80% of its dry strength.

EXCELLENT FOR SPECIALIZED GARMENT OVERDYE

Engineered for seam strength and increased abrasion resistance, this thread is ideal in lyocell, lycra, and stretch garment overdyed applications.

EXCELLENT COLORFASTNESS

Durable in laundering, this thread provides excellent colorfastness with good chemical resistance. This sewing thread has a higher dye absorbency rate than cotton. Use appropriately for best results.

**GARMENT OVERDYE • CASUAL WEAR • CHILDREN'S WEAR • DENIM AND JEANSWEAR • LADIES WEAR
• TROUSERS AND PANTS • SHIRTS AND TOPS • DRESSES AND SKIRTS**
