POLYESTER SEWING THREAD

ECO100™
100% RECYCLED THREAD

Ask your A&E sales representative about available product produced in GRS SCOPE CERTIFIED facilities.

Ask your A&E sales representative about available product with this certification.

Anefil Poly® ECO100™ is a 100% recycled, polyester sewing thread featuring a twisted multifilament construction. This sustainable thread displays good abrasion, chemical resistance, and very good color fastness. Anefil Poly® ECO100™ allows for the flexibility to infuse an ecologically-friendly, premium sewing thread into a diverse assortment of non-apparel applications, from automotive components to high quality footwear. Produced in GRS SCOPE CERTIFIED facilities, this thread product is available in bonded or soft finishes.

100% RECYCLED POLYESTER

Constructed using a 100% recycled, twisted multifilament polyester filament, this versatile thread provides great seam integrity with good seam strength and abrasion resistance.

UV RESISTANCE

This sewing thread delivers a better resistance to ultraviolet light exposure over traditional nylon and polyamide sewing threads.

EXCELLENT SEWING PERFORMANCE

Engineered to provide an excellent sewing performance, this thread boasts excellent ply security with a consistent diameter and low moisture regain when bonded.
