POLYESTER SEWING THREAD

HIGH PERFORMANCE THREAD
FOR **DEFECT-FREE** SEWING.

MATTRESS | HYGIENE | INDUSTRIAL FILTRATION | AUTOMOTIVE

MAGIC® HP

DEFECT-FREE, AIR-ENTANGLED, TWISTED MULTIFILAMENT
POLYESTER SEWING THREAD

Ask your A&E sales representative about available product with this certification.

Defect-free, Magic® HP is an air-entangled, high performance polyester sewing thread variant of A&E's Magic®. Engineered with no twist, Magic® HP is ideal for chainstitch operations, for the quilting and multi-needle seaming of mattresses, hygiene, and for use in specialty industrial products. This thread creates a lower profile seam reducing potential for surface abrasion. Manufactured with a special finish and combined with a high initial modulus, Magic® HP delivers an excellent sewing performance.

LONGER SEWING RUNS

Consistent from cone to cone to assist in minimizing machine adjustments, Magic® HP is available in large put-ups, allowing for long, continuous sewing runs without thread changes.

ABRASION RESISTANT

Flat and ribbon-like, this thread creates a lower profile seam, reducing the potential for surface abrasion, like needle cuts and cut stitches.

EXCELLENT SEWING PERFORMANCE

This product displays an excellent and consistent performance on manual and automatic multi-directional sewing machines with fewer sewing interruptions.
